Let it be well known forever that

Our precious, dearest matriarch WANDA "BABUNIA" NIDA was admitted here on november 6 2010; she was sent to icu; she was unable to talk as her body was filled with water. they put her on intrusive intubation until they killed her. they should have let go after 3 days at the maximum instead they said she needed it, knowing her oxygen level is very low and she functions just well with it, even when its 68%. we have shown them the proof but they simply did not care, as usual. as succinctly proven and explained:

@Gottliebhospit #poortretment My husband was admitted there on Monday from the er with severe head and abdominal pain.....today is Wednesday and I still have not spoken to a single doctor about my husbands condition!!!! This is completely unacceptable. I understand COVID is going on in the world but that's no excuse for the lack of communication with loved ones during such a scary time. I can't even get a call returned to our primary doctor to get him transferred elsewhere.I have been able to talk to a nurse but they cannot discharge or transfer. Btw My husband said the nurses have been excellent. Help!!!!
