Re: Your Grades

Subject:

Here's reminder on my resolute resolve to fight4my grades until the whole world hears about huge injustice i am going thru. Imagine, to have criminal record, go to joint, file police/judge reports n so much more over old, decaying grades? These r my last emails, i had to have my final word. Im fighting huge n powerful institutions. Im a pawn but a passed pawn that will be promoted into queen, the most powerful chess piece. Let cps, ccc know i ve earned my philosophy phd but i also have degree in dental technology. I used to work with porcelain/coloring, crown n bridge, dentures, orthodontix. All of these areas require one to work with very hot fire, not just bunsen burner. Only plaster job does not require melting hot heat! Encyclopediasupreme.org/Babcia /Philosophy /mp3 /pdf the great Socrates said that only ppl with philosophical knowledge should hold positions in power. That statement remains true n solid forever!
