## Talk:Simple Wikipedia

# WELCOME TO SIMPLE WIKIPEDOIA/WIKIPEEDOIA, HAPPENS 24/7!!!

**Simple Wikipedia** is a [Wikipedia](#) that supposedly is for [people learning the English language](#). In actuality, it serves as a place where [Jimbo](#)crats try to make another [shithole](#) club. It uses [English for babies](#) & English for super [retards](#) and makes [ESL](#) students really look like idiots by saying that English learners actually involve themselves in this [UTMOST CRAP](#). Simple wikipedia says they use American English, because Jewnited States of America had colonies in England[1] . Nobody can spell SHIT over there, especially way down under Ausy cock sucker 3RR WARMONGLER LTA BLATANT SUPER VANDAL SHB2000[2] who loves edit warring and losing after 7 hours of vandalizing some simple wikifag Elytrian's talk page[3] . Motherfucker is gay lover of vermont (chris gates), bsadowski1 (brian sadowski), dannyS712, operator873, naleksuh, the eternal war editing loser simple.wikipedia.org/w/index.php?title=Special:Contributions/Naleksuh&offset=&limit=500&target=Naleksuh, djsasso et al... And o my goodness... Wikipedia is known to hate women and guess what? Simple wikicrapia has A SUPER BITCH BY THE NAME OF AUNTOF6, THE ONLY WIKIBITCH ADMINISTRATOR ON THIS UTMOST SIMPLE REFUSE OF "ENCYCLOPEDIA!!!" Simple wikipedoia prouds itself by having no brains at all; they cant even call themselves monera, single cell organism SINCE THEIR EMPTY SKULLS ARE, WELL, EMPTY!!! All simple wiki administrators are jerkoffs too (djsasso, operator873[4] take the wikicake and eat it too) AND THEY ARE THE DEFINITION OF WIKIGARBAGE[5] .

Simple sittypedia is used if the real wiki article is [TL;DR](#). Some of the wikipedo aka wikidiots who can't 'keep up' with wikishit on normal wikipedoia so they end up here in the land of simple, absurd stupidity. They all have no brain cells, they are simply very stupid. One can not get any more stupid than on simple wikipedoia but what did you expect, that is wikipedoia'a norm. Wikipedia stands for truth, justice & absolute garbage and of course it is "encyclopedia".

I don't understand this : speak of?

An word does not like. [https://simple.wikipedi: title=Asshole&oldid=14
