They were supposed to treat our matriarch Wanda Nida for edema in her legs and throughout body. Instead they treated her for usual community pneumonia. She was discharged much sicker than upon admittance as this photo proves. She was supposed to be driven home by us, not in crappy john stroger jr ambulance:

John Stroger animal hospital is the worst public "hospital" in the world. When my dearest grandma Santa Wanda Nida was treated there in October 2010, they did not take care of her properly at all. Her "doctors" Swapna Aradhyula, Matthew Bielecki, Jihane Zaza Dit Yafawi did not take care of her at all. Yawafi & Aradhyula (from Terroriststan, unfortunately America keeps inviting "doctors" who graduated from 2 weeks correspondence schools cuz it does not have its own) took her off necessary furosemide but that's why MS. Nida was accepted to the hospital in the first place to put her on furosemide IV. She needed that medicine directly thru blood to get rid of EDEMA. Her legs were very bloated.
